

# Proper Glove Use:

## How to Use and Not Abuse !

### Gloves:

- Must never replace handwashing
- Should be worn when manual contact may be made with food products
- Are for single-use, single task only
- Should be right for the task
- Must fit properly
- Must be used properly

### Change Gloves:

- ∞ When they become soiled or torn
- ∞ Before beginning a different task
- ∞ When interruptions occur during a task
- ∞ At least every four hours during continual use
- ∞ After handling raw meat and before handling cooked or ready-to-eat food
